

Please do not change the regulations that would effect the FM translator system. Do not add the LPFM service . This could jeopardise my ability to receive the wonderful radio station K-LOVE. K-LOVE is a very important part in my life and my business. The family friendly music and programming is the only station I feel comfortable playing in my business, as it does not have songs that wants to kill, destroy, do drugs, or any other perverted (music) words that are offensive to me or my clients. K-LOVE support wholesome values and has a very positive and encouraging impact on me, my clients, my family, and anyone who listens to it. Please do not make any changes that might interfere with my ability to receive and enjoy the programming of K-LOVE radio through translator systems.
Thank you for your time.
Brett Hede
